

Arena® INSECTICIDE

LONGEST-LASTING PREVENTIVE CONTROL – EARLY INSTAR GRUBS

Arena® Insecticide provides the longest residual control of white grubs and maximum application flexibility when applied anytime from June 1st to July 15th at the new rate of 4.5 oz/A of Arena 50 WDG (see below). And, Arena doesn't need to be immediately watered-in, saving you time and labor. Plus, Arena consistently outperforms Merit® Insecticide, especially in early-season applications.

ARENA IS AVAILABLE IN TWO FORMULATIONS AND DELIVERS

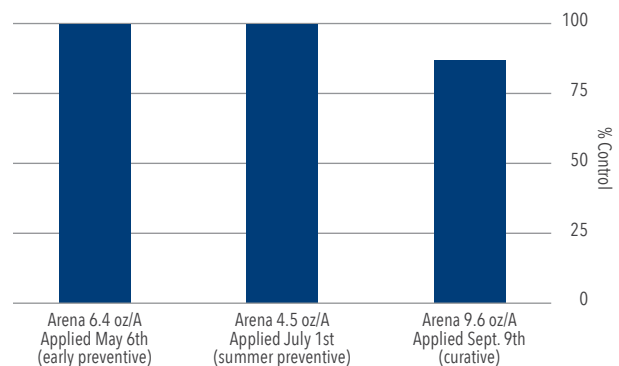

- Superior and consistent white grub control, including European and Northern masked chafer
- Longest residual grub control
- Preventive and curative grub control
- Broad spectrum control of other tough soil- and surface-feeding insects such as annual bluegrass weevil, crane fly larvae, nuisance ants, billbugs and pyrethroid-resistant chinch bugs

APPLICATION INFORMATION

INSECTS CONTROL	ARENA FORM.	APP. RATE	APP. TIMING
White Grubs: European Chafer Japanese Beetle Northern Masked Chafer	50 WDG	4.5 oz/A or 14.5 grams/ 5,000 sq ft	June 1st to July 15th
		6.4 - 9.6 oz/A or 21 - 31 grams/ 5,000 sq ft	Spring to peak egg hatch
	0.25 G	60 lbs/A or 7 lbs/ 5,000 sq ft	June 1st to July 15th
		80 - 120 lbs/A or 9 to 14 lbs/ 5,000 sq ft	Spring to peak egg hatch

ARENA DELIVERS SUPERIOR PREVENTIVE GRUB CONTROL

Arena offers rate and timing flexibility to fit both your budget and work schedule, without giving up excellent preventive white grub control.
